

WINDSOR HEALTHCARE

ADVANCED RESPIRATORY SERVICES

Windsor Healthcare's Advanced Respiratory Program offers concentrated respiratory therapy and pulmonary rehabilitation services to help patients transition back home after being hospitalized for COPD, pneumonia, or other lung conditions. Our multi-disciplinary team, which is led by our in-house respiratory therapists, provide:

- Respiratory therapy treatments
- Respiratory-focused physical, occupational & speech therapy
- Nutritional and psycho-social counseling & education
- OSA & noninvasive ventilation (BiPAP/CPAP/AutoPAP) management
- Ventilator & Tracheostomy care & weaning
- High-flow oxygen therapy
- Breathing exercises, incentive spirometry, chest physiotherapy
